

# May is Posture Month - Join the Posture Movement!

The 2017 Posture Month campaign will help people “ACE” their posture to become *Aware*, take *Control*, and design an intelligent home and work *Environment*.

“The global public health initiative brings 50+ partner associations and their thousands of members together to amplify the message to millions,” says [PostureMonth.org](http://PostureMonth.org) Chief Posture Evangelist and chiropractor, Dr. Steven Weiniger. “Posture is really important. Awareness begins with an assessment. Once people see how they really stand and balance, we have their attention to address improving posture and offer advice on posture-smart environments to support good habits.”

Join thousands of chiropractors promoting posture awareness. Help to bring real world solutions to a relevant and growing issue already on people’s minds.

**Free tools to engage patients, build awareness and grow your practice.**

## **Posture Month Toolkit**

- Flyers
- Infographics
- Social media shares
- How-to videos
